

Yuchai Range Extenders Powering 222 New Energy Buses in Macau

May 17, 2022 at 6:00 AM EDT

SINGAPORE, May 17, 2022 /PRNewswire/ -- **China Yuchai International Limited (NYSE: CYD)** ("China Yuchai" or the "Company") a leading manufacturer and distributor of engines for on- and off-road applications in China through its main operating subsidiary, Guangxi Yuchai Machinery Company Limited ("GYMCL"), announced today that the city of Macau has begun operating 222 new energy buses equipped with Yuchai's range extenders. More than 600 units of Yuchai's core range extenders have been ordered for the Macau auto market.

Yuchai's range extenders feature the advantages of seamless integration, advanced fuel savings, superior reliability, and high adaptability, which can meet the power demands of different vehicles in various road conditions. Yuchai's YCS04-100kW and YCY24-65kW range extenders used in these buses in Macau are the core range extender products of GYMCL.

The fuel consumption of these buses powered by Yuchai's range extenders is up to 4.20kW-h/L per liter, outperforming similar traditional buses in Macau, with a fuel saving of up to 50% and an annual carbon emission reduction of 50%. Compared with traditional vehicles, a new energy bus with range extenders can save nearly 14.2 tons of fuel per year, and reduce carbon emissions by about 43.8 tons.

The Yuchai core range extenders have won contracts from many first-tier domestic bus producers including Yutong Bus, Suzhou Golden Dragon Bus, and Zhongtong Bus.

Weng Ming Hoh, President of China Yuchai commented, "The congested road conditions in Macau and rapidly rising fuel cost presents an opportunity for our range extenders. We are pleased to win this contract and will continue to introduce new range extender products to offer our customers a choice of "Green" solutions."

About China Yuchai International

China Yuchai International Limited, through its subsidiary, Guangxi Yuchai Machinery Company Limited ("GYMCL"), engages in the manufacture, assembly, and sale of a wide variety of light-, medium- and heavy-duty engines for trucks, buses, passenger vehicles, construction equipment, marine and agriculture applications in China. GYMCL also produces diesel power generators. The engines produced by GYMCL range from diesel to natural gas and hybrid engines. Through its regional sales offices and authorized customer service centers, GYMCL distributes its engines directly to auto OEMs and retailers and provides maintenance and retrofitting services throughout China. Founded in 1951, GYMCL has established a reputable brand name, strong research and development team and significant market share in China with high-quality products and reliable after-sales support. In 2021, GYMCL sold 456,791 engines and is recognized as a leading manufacturer and distributor of engines in China. For more information, please visit <http://www.cyilimited.com>.
