

## China Yuchai Wins Order to Supply Over 600 Bus Engines To Shenzhen Western Bus Co., Ltd

11/06/15

SINGAPORE, June 11, 2015 /PRNewswire/ -- **China Yuchai International Limited (NYSE: CYD)** ("China Yuchai" or the "Company"), announced today that its main operating subsidiary, Guangxi Yuchai Machinery Company Limited ("GYMCL"), has won a competitive bid to supply over 600 National IV compliant diesel engines to Shenzhen Western Bus Co., Ltd. ("Western Bus").

Western Bus set high requirements for reliability, performance, energy conversation, emissions reduction, and service as the key criteria for the bidding evaluation. As a result, only three brands were considered. After strict evaluation, the orders were awarded to GYMCL.

Weng Ming Hoh, President of China Yuchai, commented, "Our wide range of industry-leading domestic engines and superior service enabled us to win this highly competitive bid. For many years, we have been the front runner in product upgrade and introduced 'first to market' engines compliant with emission standards beyond the then current requirements. We were the first to introduce National IV engines in 2008 well before that standard was implemented and enforced nationwide and we already have available National V and VI-compliant diesel engines. This order has laid a solid foundation in 2015 for us to further develop our reach into the Shenzhen market and maintain our leadership in the bus segment."

### About China Yuchai International

China Yuchai International Limited, through its subsidiary, Guangxi Yuchai Machinery Company Limited ("GYMCL"), engages in the manufacture, assembly, and sale of a wide variety of light-, medium- and heavy-duty engines for trucks, buses, passenger vehicles, construction equipment, marine and agriculture applications in China. GYMCL also produces diesel power generators. The engines produced by GYMCL range from diesel to natural gas and hybrid engines. Through its regional sales offices and authorized customer service centers, the Company distributes its engines directly to auto OEMs and retailers and provides maintenance and retrofitting services throughout China. Founded in 1951, GYMCL has established a reputable brand name, strong research and development team and significant market share in China with high-quality products and reliable after-sales support. In 2014, GYMCL sold 483,825 engines and is recognized as a leading manufacturer and distributor of engines in China. For more information, please visit <http://www.cylimited.com>
