FOR IMMEDIATE RELEASE

## CHINA YUCHAI INTERNATIONAL LIMITED ANNOUNCES Q1 2006 PERFORMANCE

**Singapore, April 28, 2006** - China Yuchai International Limited (CYI) today announced the performance for the quarter ended March 31, 2006 with net income of Rmb80.1 million (US\$10.0 million) as compared to net income of Rmb173.6 million (US\$21.0 million) for the same period in 2005.

Net sales of Rmb1,753.5 million (US\$218.0 million) for the quarter ended March 31, 2006 represents a decrease of 0.4% compared to the same period last year of Rmb1,761.0 million (US\$212.8 million). Total unit sales of 80,120 diesel engines for the quarter ended March 31, 2006 was however 13% higher than the same period last year of 70,933 diesel engines.

The overall gross margin of 20.9% for the quarter ended March 31, 2006 has declined by approximately 7.3 percentage points as compared to 28.2% gross margin for the first quarter of 2005. This decline was mainly due to the change in the product sales mix arising from increased sales of the lower margin 4-series light-duty and industrial engines and higher raw material costs.

For the quarter ended March 31, 2006, selling, general and administrative expenses increased by approximately 0.4%, due mainly to higher advertising and promotion expenses.

For the quarter ended March 31, 2006, trade account receivables has increased as a result of higher sales volume as compared to the quarter ended December 31, 2005 and normal seasonality factors. Cash balances have decreased and bank borrowings have increased for the quarter ended March 31, 2006 mainly due to higher working capital requirements in Yuchai and new investments made for strategic acquisitions in Thakral Corporation Ltd and LKN-Primefield Limited during the first quarter of 2006.

Basic and diluted net income per share for the quarter ended March 31, 2006 was Rmb2.15 (US\$0.27) compared to a basic and diluted net income per share of Rmb4.91 (US\$0.59) for the same period in 2005.

Mr Philip Ting, Director and CFO commented that "the increase in unit sales of diesel engines by approximately 13% as compared to the same period of last year was mainly due to the continued economic growth in China for the quarter ended March 31, 2006 which led to higher demand for trucks and buses in China. Yuchai continued to experience lower margins arising from product sales mix mainly due to more sales of the less expensive and smaller light-duty engines. This was attributed to the tightening of the credit supply within the banking sector in China as part of the Chinese government's attempts

to minimize overheating of the economy. The Chinese government has announced that economic growth accelerated to an estimated 10.2% in the first quarter 2006 arising from higher manufacturing investments and exports. Notwithstanding the increase in volume of units sold for the light-duty engines, Yuchai has also seen increasing levels of acceptance of the new super heavy-duty diesel engine — 6L/6M (previously called 6113) which achieved unit sales of 2,716 compared to 1,446 units for the same period in 2005 and the management believes that the future of this engine remains to be positive over the longer term arising from anticipated demand for bigger trucks and buses.”

## General Information

Yuchai has a strong brand name in China with an extensive sales and marketing network. Yuchai's products are of good quality and provide reliable performance. Yuchai has established itself as a major manufacturer of diesel engines in China with a significant market share.

CYI has filed with the U.S. Securities and Exchange Commission a copy of this press release on Form 6-K. A copy of such filing has also been sent to The New York Stock Exchange.
